

SUMMARY
COORDINATION/INTEGRATION ISSUES FOR THE DEVELOPMENT TEAM
September 24, 1999

At its first meeting the Development Team asked the Coordination Team to lay out the coordination or integration issues. As you recall, the Development Team created a Sub-Group to deal with these issues.

The Coordination Team has developed the following list of issues. The Development Team or the Sub-Group may modify this list. The Sub-Group might also ask the Coordination Team to deal with certain issues, such as the ones headed "Listing of Coordination/Integration Issues, Continued."

This list will be considered at Tuesday's Development Team meeting and further considered at Tuesday's 4:00 Sub-Group meeting.

LISTING OF COORDINATION/INTEGRATION ISSUES

CENTRAL VALLEY PROJECT IMPROVEMENT ACT

VAMP

b(1), b(2), b(3) water

Level IV Refuge Water, Supply and Shortage

Restoration Fund

ENDANGERED SPECIES ACTS

Biological Opinions
